

List of United States governors

The following is a list of current governors of U.S. states and territories.

In the United States, a governor is the chief executive officer of a state or a territory. The partisan affiliations of American governors are close to being evenly split among the fifty states. As of January 2020, there are 24 states with Democratic governors and 26 states with Republican governors. Additionally, three U.S. territories (American Samoa, Guam and the United States Virgin Islands) have Democratic governors, while one (the Northern Mariana Islands) has a Republican governor. Wanda Vázquez Garced of Puerto Rico is a member of the New Progressive Party, although she is also affiliated with the Republican Party.

State governors

The current term ends in January of the given year for every state except for Alaska, Hawaii, North Dakota, New York and Kentucky, where the term ends in December of that year's election. The notation "(term limits)" after the year indicates that the current governor is ineligible to seek re-election in that year; the notation "(retiring)" indicates that the current governor has announced his or her intention not to seek re-election at the end of the term nor to run for another office.

- Vázquez Garced belongs to the pro-statehood Puerto Rican New Progressive Party, but affiliates with the Republican Party at the national level.^[3]
